MOREY'S FULL ORCHESTRA,
From 2 to 5 p. m.

Cool and Delightful
Long Lake Park. Special rates for picnic parties by steamers leaving 9 a. m. and 1:30 p. m. daily.

LAST SERMON.

Of Rev. T. E. Monroe's
Long Pastorate.

It Will be Preached Sunday Morning.

Rev. T. E. Monroe will preach the last sermon of his long pastorate at the First Congregational church Sunday morning. It is certain that the church will be filled. As the majority of the West Congregational church members were at one time parishioners of Rev. Monroe, there will be no service at that church Sunday morning in order that they may attend this, the closing service of the longest pastorate in Akron.

Morey's full orchestra at Lakeside park Sunday.

OF SPECIAL INTEREST

To Hay Fever Sufferers.

Sufferers from hay fever and summer catarrh will be interested to learn that there is a new, simple, inexpensive but effective home treatment for this obstinate and baffling disease, and that a little booklet fully describing the treatment will be mailed free to any one by addressing the F. A. Stuart Co., Marshall, Mich.

Doubtless this statement of a cure and positive preventative of hay fever will be received with skepticism by the thousands who have found the only relief every year was a change of climate during the summer months.

But whether skeptical or not it will cost nothing to investigate this new treatment. Simply send name and address on a postal card to F. A. Stuart Co., Marshall, Mich., for the booklet which besides describing the treatment contains a concise treatise on the cause and character of this peculiar disease.

DON'T JIBE

Figures Compiled From Guesses.

Estimates Are Uncertain Quantities

And Comparisons Are Extremely Odious

In the Farm Statistics Assessors Gather.

At first glance it would appear that the most remarkable fact in connection with the agricultural statistics compiled from the assessors' reports by Deputy Auditor Mark Buckman, for publication by the State, is the statement that Cuyahoga Falls has but eight horses and six cows. This would surely indicate that the Falls' assessor was a blind man, but such is not the case. The horses counted are those used for agricultural purposes only. Cuyahoga Falls village having a great deal of farm land within its limits.

In other respects it is noticeable that the statistics are not to be absolutely relied upon. For instance, the total number of acres of cultivated land, waste land, woodland, etc., does not equal the total number of acres which the report says are owned.

All in all the report is the summary of a great deal of individual "guess work." It may be sufficient for the purpose, but when it is stated that Copley produced 2,024 tons of hay, while Northampton produced only 2,023, it would not be safe to gamble that by actual measurement and weight Copley produced more hay than Northampton. Maybe Copley people were only the best guessers, maybe Northampton people guessed too high.

The report also states that 459,338 dozens, or 5,512,056 eggs were laid by Summit county hens—more guess work, and yet it shows that there are a good many hens in these parts and it is a safe wager that they were fairly busy. The eggs they laid at an average price of 12 cents a dozen would more than pay the salary of the President of the United States.

There is another feature of the report which is often misunderstood. Comparisons are made between different townships. This cannot be fairly done, unless Green and Franklin are omitted because they are very much larger than any other township; and Norton is omitted because Barberton occupies a large part of it; and Portage and Coventry are omitted because Akron occupies a large part of those townships; and unless Tallmadge is omitted because Akron and Cuyahoga Falls cut off considerable portions of it. Verily comparisons are odious.

Taking the county as a whole, however, Green, with its 58,525 bushels, is easily in the lead as a producer of wheat, even when its larger size is considered. Twinsburg falls the lowest of the ordinary sized townships—with only 5,861 bushels.

Copley leads in the production of oats, always remembering that the townships are of different size, with 55,285 bushels. Likewise Copley is ahead in the production of corn, with 69,450 bushels, shelled. Franklin would undoubtedly be second.

For potatoes, Northfield heads the list, with 65,063 bushels. When it comes to milk, butter and cheese, no other towns approach Hudson, Northfield, Richfield and Bath. Hudson easily leads in the production of maple syrup, too,—14,903 gallons. Bath made the most maple sugar—5,278 pounds.

Richfield, with 1,927 acres, has more woodland than any other township, because it includes the big Brush farm, much of which is uncleared land. Boston, with 427 acres, has the most work land. All told, there is enough waste land in Summit county to make a large number of respectable farms if it could ever be drained or cleared, or cultivated in any way. The amount is 6,419 acres.

The report shows that in the aggregate farmers lose a great deal of money every year by death among their flocks and herds.

One hundred and 27 horses valued at \$8,555 died; 275 head of cattle, valued at \$7,789; 457 sheep, valued at \$1,429; 457 hogs, valued at \$2,502, a total of \$20,575, enough to stock the farms which may some day occupy the county's waste land.

Coming down to cold figures—estimated of course—it is found that Summit county farms produced as follows:

Wheat, 504,518 bushels; rye, 1,530 bushels; buckwheat, 300 bushels; oats, 608,969 bushels; corn, 743,137 bushels; potatoes, 327,643 bushels; onions, 1,639 bushels; hay, other than clover, 25,377 tons; clover, 3,139 tons; milk for family use, 2,312,867 gallons; butter, 543,700 pounds; maple sugar, 9,675 pounds; honey, 1,646 pounds; apples, 264,594 bushels; peaches, 1,421 bushels.

Horses owned on the county farms number 5,828; cattle, 18,200, of which 11,520 are milk cows.

There were used during 1900 in Summit county, 3,207,000 of commercial fertilizer, which cost \$33,941. Twinsburg used the most.

SCARECROWS

Erected by Gen. Dick.

He Says "Stand by the President" Is Again an Issue.

Columbus, O., July 27.—Gen. Charles E. Dick, chairman of the Republican state executive committee, called at the office of Adjutant General Gyger yesterday morning to get some of the encampment dates. He said he wanted to visit some of these camps and inspect the troops. To a representative of the Plain Dealer who met him there, Gen. Dick said in regard to political matters that the Ohio campaign, in his opinion, would have to be fought on national lines.

"It is an exceptional situation," said he. "Not only is there a United States Senatorship at stake in the election, but since the next Presidential election may be thrown into the house of representatives, it is a matter of great importance that Ohio should send as many Republican Representatives as possible to the house. The Legislature that we choose this year has the duty of redistributing the state for representation in Congress, so that there are some big national issues in the election here."

"But more than that Ohio is being watched from the rest of the states to see whether the President is still supported in his own state in all his policy regarding the big new national questions. These matters will be fully presented to the people. We expect to bring to our aid on the stump some of the best campaign orators in the country, and the other fellows will have a run for their money if they catch our pace."

It is easier to keep well than get cured. DeWitt's Little Early Riders taken now and then, will always keep your bowels in perfect order. They never gripe but promote an easy, gentle action.

GUilty

Only In a Technical Way.

Saloon Was Closed at Front and Rear

But Open to a Dining Room Party.

No Money Charged For Drinks, and Mayor Was Lenient.

Mayor Doyle on Saturday morning fined Chas. Widdersheim \$25 and costs and sentenced him 10 days to jail on charge of keeping his saloon open on Sunday. In view of his having been found guilty only in a technical way, the Mayor remitted the fine and time part of the sentence, leaving only the costs. If he is brought in again the sentence will be added to whatever punishment may follow.

In reviewing the case, Mayor Doyle said that Widdersheim, whose saloon and residence at 1325 S. Main st., are combined, was closed at the front and rear and no one permitted to enter, after 12 o'clock. However, he took a party of friends into a private dining room, and there served them with drinks in a friendly way, free of cost—he was giving them a party. But the door in the partition between the residence part of the house and the saloon was kept open, and this, the Mayor said, was technically a violation of the law. A bartender was kept busy walking back and forth between the dining room and saloon. The Mayor was inclined to show lenience because no money had been charged for the drinks consumed.

WHAT TWO CENTS WILL DO.
It will bring relief to sufferers from asthma, or consumption, even in the worst cases. This is about what one dose of Foley's Honey and Tar costs. Isn't it worth a trial?

Your Opportunity to Get in on the Ground Floor

KING OIL CO.

AN OIL GUSHER GUARANTEED OR YOUR MONEY RETURNED

Land large enough for five wells located in Lot 38, Spindle Top Heights, the Manhattan Gushers Derrick touches ours on one side, the Reilly No. 2 on the other, 100 feet from Reilly No. 1, 150 feet from Heywood No. 2, 75 feet from Hogg-Swayne, all five Gushers actually surrounding our well, making us SURE OF GETTING OIL.

Your Money Safe and Sure to be Worth 5 for 1 inside of Sixty Days

The contract for drilling, on which operations have begun, has been made with the Famous Heywood Oil Company, which guarantees a 6-inch oil gusher or no pay. As a business proposition it is hardly likely that a concern of their standing, with a capital of \$500,000 and three flowing wells averaging over 70,000 barrels a day, would undertake this contract, placing their time and money against the well proving a gusher, if they were not actually and positively sure our property was oil producing land. For they receive no pay until they produce a 6-inch oil gusher.

The Capital Stock is only \$300,000. Shares \$1 Each. Full Paid and Non-Assessable. Title in fee simple. Warranty deed and guarantee bond behind it—No salaries officers. Other companies capitalize \$1,000,000 to \$3,000,000, with no assurance of a guaranteed proposition.

The officers and directors are men of sound business principles, conservative and careful, and look for sure results before investing.
